

## F O R E W O R D

This Register of Near Eastern Students Studying in the United States has been prepared in answer to many requests from public and private agencies.

Information on students from Arabia, Egypt, Ethiopia, Iran, Iraq, Lebanon, Syria, and Turkey has received approval by attaches of the respective embassies and legations. No authoritative approval on the lists of Greek or Palestinian students was possible. The dates appearing at the end of the lists represent the approval date. Students doing graduate work are indicated by the letter "G" and those doing under-graduate work by the letter "U".

Wherever the information is available, graduates of American Universities in the Near East have been so indicated by an asterisk preceding their names. When it was impossible to learn where students were attending, the names were listed under "Miscellaneous." Certain blanks appear in some of the columns, particularly in the Greek and Palestinian lists. Any authoritative data that can be given to supplement information contained herein will be appreciated. The present plan is to revise this list periodically.

We wish to acknowledge the assistance given by the Department of State, Division of International Exchange of Persons, the Committee on Friendly Relations Among Foreign Students, and the Institute of International Education.

Ruth C. Sloan  
Director of Research

September 30, 1946
